HARRIMAN IN AND OUT AGAIN

Route to Yellowstone.

NOTES WORK TOWARD NEW SELLER IS CLOSING OUT ALL HIS CITY RECORDER CRITCHLOW UNION DEPOT FOR ZION.

That trip which E. H. Harriman made to Salt Lake yesterday aftercan hardly be classed as "pleasure," not yet as business. It was too strenuous a jaunt to be pleasureable-

Harriman system, was met at Green
River by W. H. Bancroft, vice president and general manager of the Oregon Short Line. The party was joined at Odgen by H. V. Hilliker, division superintendent, and later in this city by D. S. Spencer, assistant general freight and passenger agent.

So Comp. freight and passenger agent.
"Say, it looks as if a cyclone struck
this depot," commented Mr. Harriman
as the special of seven coaches arrived

He was interested in viewing the progress of tearing down old buildings and making way for the new union

Following luncheon and the short programme of entertainment the party pulled out of Salt Lake for Odgen and a trip over the Lucin cutoff at 3 o'clock.

LEAVES FOR YELLOWSTONE.

Harriman Special Pulls Out After Brief Stay in Ogden. (Special to The Herald.)

Odgen, July 31 .- E. H. Harriman and party passed through Odgen three times today, coming through from the east en route to Salt Lake, going over the cutoff, returning about 7:30 p. m. and after about a five minutes' stop going on to Monida. At this point, Mr. Harriman and his guests will take stages for Yellowstone Park. Mr. Har-riman did not leave his car at any time during his brief stop in Ogden, During the stay here, on the return from the cutoff, the party had dinner. The trip over the lake was without special significance, Mr. Harriman simply significance, Mr. Harriman simply wishing to show the work to the railroad men with him. He chatted with W. H. Bancroft, vice president and general manager of the Oregon Short Line, Everett Buckingham, general superintendent, and E. C. Manson, division superintendent of the Southern Pacific.

He was well pleased with the road he was well pleased with the read bed and the manner in which it had justified the expense of its construction. He commented favorably on the excellent condition of the track and on the ride from a scenic standpoint. From other members of the party it was learned that the construction of a double track on the Union Pacific between Omaha and Odgen is under serious contemplation and that the im-provements projected for the Odgen yards are to be carried out according to original plans. These matters, how-ever, were not discussed by Mr. Harri-

CONFER ON TRAFFIC.

Traffic Officials of Harriman and Clark Roads Are Meeting.

San Francisco, July 31.—A conference began here today between the traffic officials of the Harriman lines and officers of the San Pedro. Los Angeles & Salt Lake railroad. The question being discussed is whether the Southern Pacific shall accord to the Salt Lake road trackage privileges in Los Angeles.

The officials who represent the Harriman lines are William Sproule and G. W. Luce of the Southern Pacific, J. A. Munroe of the Union Pacific and T. M. Schumacher of the Oregon Short Line. The Salt Lake Route men are J. Ross Clark, vice president of the Salt Lake road, and E. W. Gillett, general freight and passenger agent of the same line, who arrived today from Los Angeles.

In speaking of the matter Mr. Clark said: said:
"I hope that the conference will fesult in something definite, but the result cannot be foretold."

Conrad E. Spens Appointed on "Q" Lines West of Missouri.

Chicago, July 31.—Conrad E. Spens, assistant general freight agent of the Chicago, Burlington & Quincy in Chicago, has been appointed general freight agent of the "Q" lines west of the Missouri river. He will take charge at once and expects to make Omaha his headquarters. Mr. Spens is probably the youngest general freight agent on a big railroad system in this country, being not quite 30 years of age.

St. Petersburg, July 31.—The government is instituting trials of American car coupiers on the St. Petersburg & Moscow railroad. Director Notton of the Moscow-Kazan line, who equipped a train of eight cars with these coupiers, is an enthusiastic advocate of their use.

man, himself, confided he had "nothing up his sleeve." At any rate his stay in Zion consumed just about 125 minutes. In that length of time local officials of the Harriman system crammed in a visit to the general offices, luncheon, an organ recital and an autotrip about the city.

Mr. Harriman refused to see that any utterances of his regarding railroad activity in this section of the country or as to the Equitable row would be interesting to the public. He stated that he and his companions, numbering about twelve, were en route to Yellowstone Park, that he was not interested, at this time, in taking a hand in the adjustment of any freight tariff troubles, that four days would be spent in the park and several weeks in the Orient; and that he had nothing to say regarding the Equitable situation, having already "said enough."

Mr. Harriman, who is accompanied by Julius Kruttschnitt, superintendent of maintenance and operation of the Harriman system, was met at Green River by W. H. Bancroft, vice presi-

Revival of the Trouble.

The trouble between City Engineer George W. Riter and Colonel E. A. Wall, chairman of the board of public works, over the grading and paving of Brigham street, was revived by a letter from Colonel Wall in regard to the resolution introduced at the former meet cials and employes and contractors were to be required to conform to the grade lines and elevations established by the council.

"I beg to offer my cordial approval thereof," said Colonel Wall in his comthereof," said Colonel Wall in his com-munication, "and in order that respon-sibility for previous departure from grade lines established by your honor-able body may be lodged, I would most respectfully and earnestly insist that an inquiry be at once instituted which shall determine whether the pavement of East South Temple street row nearof East South Temple street, now near-ing completion, conforms to or is con-sistent with the grade specified and esining Bugs.

County Horticultural Inspector J. P. Sorensen yesterday submitted to the board of county commissioners a statement of the work of himself and his assistants during the month of July. Incidentally he told of the delay to which he had been subfected when he had

Colonel Wall also says the contractor is greatly hindered by the refusal of the city engineer to furnish the necthe city engineer to furnish the necessary lines and grades without a direct order from the council, and as the procuring of such orders from day to day would prolong the work indefinitely he says "I would respectfully request that your honorable body authorize the board of public works to employ a capable engineer, to serve until the completion of the work, which will probably not exceed three weeks."

Tuddenham's resolution, which called out Colonel Wall's communication, was adopted by a vote of 13 ayes to 2 noes, after Tuddenham explained that he was willing to have the complaints of Colonel Wall in regard to extravagance in the matter of paving Brigham street investigated at the proper time, that is when the bills for extra work on the street come before the council.
